piece
kit

Hydraulic Porta Power Kit - 10 Tonne

92759

Provides a traditional and highly effective method of pushing or pulling bent panels and chassis structures back into shape, and is powerful enough for most body and chassis straightening work.

- Kit includes: 4x push together steel tube extensions, hydraulic ram & hand-operated pump, 6 types of foot connection, together with a spreader ram.
- Hydraulic ram stroke: 135mm.
- Extension tube sizes: 100, 200, 300 & 550mm.

Range: 355 - 490mm

Includes 6 types of foot connection,
including a spreader ram

LATERAL TENSION

92733
92734
6 92735

Lateral Tension Pullers

These lateral pullers are designed to help stretch dents out. The puller works by applying a spreading force to relieve the tension in the metal during glue pulling and other dent removal methods.

- Strong aluminium construction with simple to use screw adjuster knob, that also features a 3/8" D allowing it to be used with a ratchet.
- Puller arms fitted with a quick-change system to allow the legs to be turned around so bridge can be used to pull inwards as well as out.

Part No.	Size	Price
92733	250mm	£99.95
92734	450mm	£124.95
92735	900mm	£139.95

Lateral Tension Puller Glue Pad Set 8pc

92736

"Caterpillar" style glue pads, designed to work with the Power-TEC lateral puller range.

Kit includes:

- 2x Type 1 (large flat)
- 2x Type 2 (large concaved)
- 2x Type 3 (short flat)
- 2x Type 4 (short concaved).

£34.95

NEW

High Strength PDR Glue for Lateral Tension Pulls 10pc

92760

This high-strength hot melt glue provides a strong cure for reliable bonding when applying lateral tension pulls using PDR methods.

- Size: 300 x 10mm.
- Cure time: 2 minutes.

£33.95

Assorted Glue Puller Pads - 6pc

91557

Kit includes:

- 145mm & 115mm Polyethylene puller pads.
- 60mm low density Polyethylene puller pads.

£27.95

Solvent Spray for Hotmelt Glue

92341

For removing hot melt glue from body work.

PDR Lever Pulling Bar - 660mm with Aluminium Pad Puller
92730

Features a pivoting rubber foot pad, an adjustable lifting point with 250mm of fore and aft movement, a height adjustable pad holder with integral ball-joint.

£349.⁹⁵

Mega 2 Arm Puller with Multi-Hooks
92728

Measures 900mm in length with clearance between the working surface and the bottom of the beam of 175mm.

- Keeping panels under tension to allow for planishing & reshaping.
- With fully rotatable & adjustable feet with 40° of movement.

£1749.⁹⁵

Easy Lift Hydraulic 92409

An efficient, mobile hydraulic lifting device designed for safely supporting cars and light commercial vehicles. The unit allows lifting via either the wheels or the vehicle sill and provides smooth, controlled elevation to a maximum height of 995 mm.

- Max vehicle weight 3000kg; safe lifting capacity 1500kg (one side of vehicle); Overall size: 1010 x 660mm.
- Uses standard workshop air.

92340

Max weight: 2500kg

Mobi-Lift Mk2 92340

Designed for lifting a vehicle sideways, allowing for mechanical repairs, bodywork or repainting. The compact design with a single movable column including various fittings to suit different types of work makes this an ideal lifting solution, especially where space is limited.

- Safe lifting capacity 1250kg (one side of vehicle).
- Max lift height: 980mm.
- Max wheel diameter: 18".

£1429.⁹⁵

LIFTING

NEW

Heavy-Duty Axle Stands - 2pc

Designed with ease of use in mind with a steel tubular handle and wheels for easy movement around the workshop.

- Features a shallow angled "V" shaped saddle, measuring 75 x 90mm. Adjustable height with pre-drilled holes & large diameter locking pin.

Part No.	Max Weight	Height	Price
9334	7 Tonne	295 - 395mm	£159.95

8440

Hydraulic Bottle Jack - Vertical & Horizontal

Can be used at any angle between vertical and horizontal. This versatility makes it suitable for tasks such as straightening beams, chassis rails, positioning heavy machinery, as well as jacking.

- Features a threaded top adjuster & 360° pump head.
- Can be used within 90° of vertical.

Part No.	Max Weight	Lifting range	Price
9331	8 Tonne	235 to 450mm	£89.95
9332	12 Tonne	245 to 480mm	£99.95
9333	20 Tonne	275 to 525mm	£139.95

Engineered Acetal Jack Pads for Teslas - 4pc

Pushed directly into the lifting points on the underside of the vehicle, the rubber O-ring holds the pad in place whilst the jack or ramp is then raised up to the pad, with the rubber collar helping to both identify their location under the car and to act as a grip to help remove the pad from the vehicle after use.

Part No.	Applications	Qty	Price
8439	Model 3 and Y	4	£59.95
8440	Model S and X	4	£69.95

FINISHING

Offers end 31st May 2026

Multi-Head Cordless Polisher Kit - 12V

92750

Features a 6-speed brushless motor and comes supplied with three interchangeable gear heads, allowing you to select the appropriate head depending on pad diameter and speed requirements.

£229.95

180° head movement

92331

Surface Prep Pro

92331

Excellent on steel and softer metals; will remove contaminants or rust and leave a bright metal surface. With the included stripe off eraser perfect for removing pinstripes, vinyl stickers, stripes or decals on painted metal surfaces, plate glass, aluminium and glassfibre.

- Features a air hose connection for dust and material extraction.

£399.95

Pneumatic Detail Polishing Tool Kit

Variable speed dual-action

92685

Air Palm Random Orbital Sander - 150mm

92685

Designed for use with 150mm (6") hook and loop sanding discs with dust extraction holes. Features composite housing with a soft rubber grip, to help reduce vibration and hand chill, a standard 1/4"-19PT air inlet and a rear facing exhaust for use with a dust extraction system.

£99.95

£129.95

Air Belt Sander

92712

Features variable speed control, designed for use with 10mm x 330mm sanding belts. Perfect for working in confined spaces and ideal for sanding bodywork, alloy wheel spokes, metalwork fabrication and filing and sanding.

£159.95

92713

Air Finger Pad Sander

92713

Ideal for sanding confined spaces, and great for alloy wheel refurbishment. The compact finger pad vibration is perfect for working between wheel spokes; also suitable for tool blade sharpening.

- Designed for use with standard 50 x 22mm & 65 x 17mm hook & loop sanding strips.
- Noise level: 81dB. Vibration: 1.2m/s².

BODY TALK

WITH **DOMINIC CONSTABLE**

Power-TEC's Sales Demonstrator for Scotland & North East

I have been with Power-TEC and Tool Connection for over 3 years, and have been connected to the "Motor Trade" for nearly 30. From building my own LPG conversion company to Coachbuilding and Right-Hand Drive conversions, I have built up a great appreciation for what really makes our industry. The people.

I look after the North of England, Scotland and Ireland and I have met many great customers and I enjoy supporting them through challenging times in the industry with innovative, time saving, great value products. I enjoy getting customers involved in demonstrations, especially with these great products...

Nitrogen Plastic Welder with Generator 92452

Nitrogen plastic welding is easily my favourite demonstration, and this tool makes it incredibly straightforward. The technology does much of the hard work for you, helping achieve excellent results from the very first attempt. With just a small amount of practice, **the quality of repairs is consistent and easily repeatable.** Using the Power-Tec 92452 Nitrogen Plastic Welder with Generator, technicians can confidently tackle a wide range of repairs — from bumpers and headlights to engine plastics and interior trims. Quite simply, it's a fantastic bit of kit that delivers consistent, high-quality repairs.

£2999.⁹⁵

Adhesion Pro GP System 92748

Fantastic for workshops that want **professional-quality dent pulling without the hefty price tag.** It's suited to EV, hybrid, and aluminium vehicles, and gives technicians the confidence to work on today's modern materials. When we demonstrate the system, everything is hands-on, and it really shows how much it can improve day-to-day productivity while opening the door to repairing the latest vehicles coming into the workshop.

£999.⁹⁵

NOW FEATURES adjustable hoist with 27 height positions

PULLING FORCE NOW UP TO 600KG

Counterbalanced by anchoring plate, which is grounded using workshop air supply.

Pulling Tower 92767

Over the past few years, our pulling tower has proven to be a real success, establishing itself as a reliable and effective solution. Its ease of use, combined with consistent pulling performance, makes it a valuable addition to any panel welder system. It delivers **up to 600kg of traction force**, setting it apart from comparable products on the market and, most importantly, giving technicians the confidence to tackle demanding repairs.

£979.⁹⁵
